REGULATIONS

Applications.—Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

Establishment of Credit.—In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

Ownership and Use of the Equipment.—Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

Interruptions to Service.—When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than the negligence or willful act of the subscriber, an allowance shall be made, at

the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

Telephone Numbers.—The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

Telephone Directories.—Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

Use of Service.—Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

Payment for Service.—The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.00 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

INFORMATION ABOUT TELEPHONE SERVICE

How to Use the Telephone

When using the telephone speak distinctly in a moderate tone of voice.

To recall the operator on a Common Battery telephone (one where you signal the operator by merely lifting the receiver from the hook) on a connection, move the receiver hook up and down slowly three or four times.

On a Magneto telephone (one where you signal the operator by turning a crank) if you wish to recall the operator hang up the receiver and give the crank one quick turn.

Party Lines

All subscribers on the line have equal rights; for that reason calls should be reasonably limited in length of conversation. To make for efficient service and to prevent annoyance to others on the line the following rule should be observed:

When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver carefully and quietly to the hook and wait for those using the line to finish.

Always answer your own signal. If there is any confusion about the rings, report the facts promptly to the Chief Operator.

Telephone Service Calls

Call "Information" for names not listed in this directory.

Call "Chief Operator" to report unsatisfactory handling of your calls.

Call "Repair Service" when your telephone is out of order.

Call the Business Office, Main 9981, for all matters relating to new telephone service, removals, termination of service, directory listings, adjustments of accounts, collection of bills, etc.

Telegrams by Telephone

You may telephone telegrams, cablegrams or radio-grams to the Western Union Telegraph Company.

When calling the telegraph company follow the instructions shown under its listing in this directory.

By arrangement with the Western Union Telegraph Company, the charges for telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

INFORMATION ABOUT OUT-OF-TOWN CALLS

Wherever possible, please Call by Number when you telephone out of town, whether you wish a specified person or will talk to anyone who answers. If you do not know the number, the Long Distance operator will supply it. Please make a note of it for future use.

Out of town calls are of two general classes:

STATION-TO-STATION CALLS—such calls are for ANYONE WHO ANSWERS at the distant telephone.

To place a Station-to-Station call ask for "Long Distance." Give the Long Distance operator the name of the place and the telephone number you are calling as, "Detroit, Michigan, Cadillac 9900." If you do not know the number, say, for example, "Detroit, Michigan, anyone at the residence of John Brown, 4000 Highland Blvd." Then if you are asked to hold the line understand that your number will be requested while the call is being completed at the distant place.

Station-to-Station rates are lower than Person-to-Person rates. These rates are reduced between 7 P.M. and 4:30 A.M. (Night Rates) and all day Sunday if the initial period rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the Day, Night, or Sunday rate applies.

Charges begin when the distant telephone is answered.

There are no Report Charges on Station-to-Station calls except on Collect Calls when conversation does not take place the first time the distant station is reached.

PERSON-TO-PERSON CALLS—such calls are for A SPECIFIED PERSON at the distant telephone (or

a particular extension or department reached through a Private Branch Exchange).

To place a Person-to-Person call ask for "Long Distance." Give the Long Distance operator the name of the place, the telephone number, and the name of the person with whom you wish to talk as, "Detroit, Michigan, Cadillac 9900, John Brown." If you do not know the number, say, for example, "Detroit, Michigan, John Brown of John Brown and Co., 1000 Cass St." Then if you are asked to hold the line understand that your number will be requested while the call is being completed at the distant place.

Person-to-Person rates are somewhat higher than Station-to-Station rates. These rates are reduced between 7:00 P.M. and 4:30 A.M. (Night Rates) and all day Sunday if the initial period rate exceeds 50c. The time of day at the originating point when conversation starts determines whether the Day, Night, or Sunday rate applies.

Charges are computed from the time conversation with the specified person at the distant telephone begins.

A Report Charge is made on a Person-to-Person call if the distant telephone is reached, the desired person is not available, and the call is not later completed.

COLLECT CALLS—If you ask the Long Distance operator at the time a call is placed, she will arrange to have the charges billed to the called party without additional charge. This can be done whether the calls are placed on a Station-to-Station or Person-to-Person basis; except that Person-to-Person rates apply to Collect Calls where the initial Station-to-Station rate is less than 20cents, and a rate of 25 cents applies where the initial Station-to-Station rate is 20 cents.

If the called party refuses to accept the charge, a Report Charge will be made unless the call is then completed as a paid message.

The billing of charges to the called party is not permitted on calls to points in Mexico nor on Overseas calls.

RATES TO SOME OUT-OF-TOWN POINTS

The following table shows the Day Station-to-Station rates to some out-of-town points frequently called from Mokence. The initial talking period in all cases is three minutes with the exception of station-to-station rates of 25c or less where the initial talking period is five minutes.

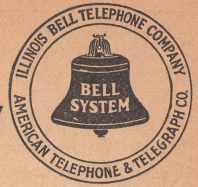

Blue Island	\$0.30	Grant Park	\$0.10
Champaign	0.50	Kankakee	0.10
Chicago	0.45	Watseka	0.25
Danville	0.50		

For rates not shown in this schedule, or for other information regarding toll connections call "Long Distance."

The rates herein stated are the legal rates of the Company as on file with the Illinois Commerce Commission May 4, 1936.

We Have Found

Through years of usage that
the best results are obtained by
speaking distinctly with the lips
not more than one inch from
the mouthpiece of the tele-
phone.

It is not necessary to shout.

ILLINOIS BELL TELEPHONE COMPANY

Do Your Shopping
THE QUICK, EASY,
COMFORTABLE WAY

By Telephone

DEPARTMENT STORES, YOUR GROCER,
DRUGGIST, FLORIST, AND DELICATESSEN

All Welcome Telephone Orders

THERE is no need for you to "go to the store" in person to do your buying. Dealers in almost every line are prepared to give personal, painstaking attention to the customer who prefers the easier method of buying by telephone.

Time was when the telephone was used for ordering supplies only in an emergency. Now department stores take orders by telephone for almost everything they carry, and small stores give equally satisfactory and cheerful service to the telephone buyer. Without leaving the comfort and privacy of her home, the household manager now telephones her orders for the day's supply and other needed items of merchandise, which are selected carefully for her at the stores and delivered promptly.

The recent rapid increase in telephone shopping is the result of the growing appreciation by the stores of a desirability of encouraging the telephone customer, and a keen desire to build up confidence in the telephone method of buying. Special facilities supplied by the Telephone Company for handling telephone sales on a larger scale in many of the stores and the increase and improvement in telephone facilities in the homes of customers which constantly invite them to take advantage of the ease and efficiency of the telephone method have had their share in promoting the popularity of the telephone shopping habit.

Telephone buying benefits seller as well as buyer. Merchants who desire to equip themselves to handle a larger share of telephone orders are invited to consult our Business Office.

It Saves Time ★ It Saves Expense

IT MAKES TRIPS IN BAD WEATHER UNNECESSARY

Tel. MAIN 112

*Your telephone "takes" you
almost anywhere--*

QUICKLY and economically your personality may be carried to all parts of the country, up-state, down-state or thousands of miles beyond the states.

BY BELL LONG DISTANCE TELEPHONE

The nearby towns and the distant cities are at your desk. Anywhere you desire to send your will your telephone is ready instantly to carry it. Toll rates to hundreds of points are but from 10 to 25 cents and equally reasonable for greater distances.

*Bell Lines Reach Everywhere—
even Everybody.*
